

Lead Web Developer - JS + .NET

Swann Le Vigouroux, 19 bd Aiglin - 13004 Marseille - France • 06.41.584.582 •
le.vigouroux.swann@gmail.com

PROFILE

```
>_ console.log ( `Hello ${YOU}` );
```

I am a senior Web Developer who loves to play with new technologies. I work every day to improve my team's skills and mine. I can't imagine being in a team who does not like to share and spread knowledge around.

In my career, years spent in Toronto were really important. I have learnt to love even more our field by being around great people making the Web. And by being in the middle of younger developers in a thirst for knowledge.

I want to spend my energy to enable this enthusiastic work environment everywhere I could work for.

<https://swannlv.github.io>

<https://www.linkedin.com/in/swannlv>

- Specialized in Web (I have done software, mobile & image analysis)
- Modern Javascript & Microsoft technologies
- Love learning and sharing
- Certified Scrum Master
- Worked in an English speaking city for 3 years
